PERSONAL STATEMENT

UCL graduate with experience across football, sport, media, and data analytics, bringing analytical, creative, and stakeholder engagement skills to football environments. Delivered football content and campaigns in collaboration with Arsenal FC, BBC Sport, ITV Sport, The FA, Nike, Adidas, EA Sports, and UEFA, including research-driven content that achieved 1M+ views across TikTok and Instagram. Experienced in analysing player statistics, match data, audience insights, and campaign performance to produce evidence-based recommendations and engaging data-led storytelling. Recently completed Generation UK's Data Analytics programme, developing practical technical expertise in Excel, SQL, Python, and Power BI, alongside developing football coaching experience and a strong interest in performance analysis and player development. I am now looking to apply my data analytics skills and football knowledge within the football industry, particularly across digital and social analytics, sports insights, and performance analysis — using data to identify trends, understand audiences, support decision-making, and turn football data into engaging stories.

KEY SKILLS

- **Microsoft Excel:** Used pivot tables, formulas, and data cleaning techniques to analyse datasets during the Generation UK data analytics programme.
- **SQL:** Queried, filtered, and joined relational datasets to extract and interpret insights from real-world style data.
- **Python:** Applied data manipulation and cleaning techniques to prepare datasets for analysis and reporting.
- **Data Visualisation:** Built charts and dashboards to present player, match, and campaign insights clearly to stakeholders.
- **Football Data Analysis:** Analysed player statistics, fixture trends, and match data to produce weekly Fantasy Premier League recommendations, including captain picks and transfer decisions.
- **Data Storytelling:** Translated audience and performance insights into content that reached 1M+ viewers across sports campaigns with COPA90, Nike, and UEFA.
- **Research & Reporting:** Conducted campaign research and audience analysis that informed content strategy for Arsenal FC, BBC Sport, and The FA.
- **Collaboration & Communication:** Communicated research, analysis, and content recommendations across football, media, and creative teams, including managing a content team that grew social following by 2,000+ in under three months.

EXPERIENCE

Data Analytics Trainee | Generation UK & Ireland Remote / UK • July 2026 – September 2026

Intensive data analytics programme developing practical experience in data preparation, analysis, visualisation, and reporting using industry-relevant tools.

- Built dashboards and visual reports from real-world style datasets, surfacing key trends and patterns for stakeholders.

LinkedIn: [linkedin.com/in/georgiajavysummers](https://www.linkedin.com/in/georgiajavysummers) • **GitHub:** github.com/ge0rgiajavy •
Portfolio: [Portfolio Link]

- Used Excel, SQL, and Python to clean and query datasets, turning raw data into clear, actionable insights.
- Delivered analytical outputs to deadline while managing multiple concurrent tasks, strengthening problem-solving and prioritisation skills.

WORK EXPERIENCE

FPL Content Contributor | One Two Sports Social
April 2026 – Present

Birmingham •

Contribute football analysis and data-led recommendations for a growing sports platform, translating player and match statistics into accessible content for football audiences.

- Analysed player statistics, fixture trends, and match data using Excel to produce weekly Fantasy Premier League recommendations, including captain picks and transfer decisions.
- Interpreted performance trends and statistical insights to develop evidence-based recommendations for a growing football audience.
- Translated football analysis into accessible short-form content and match reactions, contributing to consistent audience engagement and content reach across the platform.

Content & Community Lead | League Leaders
– April 2025

London • February 2025

Led content and community activity for a newly established football charity, using audience insight and content performance to support digital growth.

- Used audience insights and content performance data to inform digital content and community growth strategy.
- Grew social media following by 2,000+ in under three months through structured publishing, audience engagement, and performance-led content optimisation.
- Managed a team of content creators, reviewing platform analytics weekly to monitor output quality and optimise content performance.

Campaign & Content Contributor | Google Pixel FC – The Powerhouse Project
United Kingdom • January 2025 – June 2025

Contributed to culture-led football campaigns, combining research, audience insight, and content development across multi-platform projects.

- Conducted campaign research and audience analysis to inform content strategy for multi-platform campaigns delivered in collaboration with Arsenal FC, BBC Sport, ITV Sport, and The FA.
- Used audience insight to shape content ideas designed to engage football audiences, contributing to campaign reach across digital platforms.
- Translated research findings into content recommendations, supporting campaign planning across multiple partner organisations.

Marketing Communications Intern | Bloomsbury Football
2024 – August 2024

London • May

Supported marketing and communications across grassroots football programmes, contributing to campaign delivery and audience engagement.

- Conducted research to inform marketing and communications activity across grassroots football programmes, supporting audience-focused campaign planning.
- Supported delivery of campaigns and audience engagement initiatives, contributing to communications reach across grassroots football communities.
- Collaborated with the wider team to coordinate communications activity, ensuring consistent messaging across multiple programmes and initiatives.

Production Intern | COPA90
August 2023

London • May 2023 –

Supported football content production and research across multi-platform campaigns for major sports and entertainment brands.

- Conducted research supporting football content that achieved 1M+ views across TikTok and Instagram, later featured by BBC Sport, England Football, and INDIVISA.
- Supported end-to-end production across branded projects with Nike, Adidas, EA Sports, and UEFA, coordinating research, scheduling, and post-production.
- Used research and platform-specific insight to shape football stories for digital audiences, supporting content performance across channels.

FOOTBALL QUALIFICATIONS & CERTIFICATIONS

The Football Association (FA)

- Introduction to Football Coaching (FA Level 1) – In Progress
- Introduction to First Aid in Football
- Safeguarding Children in Football

INTERESTS

Strong interest in football analytics, coaching, and grassroots player development, with a particular focus on performance trends, player statistics, tactical decision-making, and data-led analysis. I am also interested in the growth of women's football and the role of digital media and storytelling in shaping football culture and fan engagement. Outside of football, I enjoy film and photography, which complement my creative background and interest in visual storytelling.
