PROFESSIONAL SUMMARY

UCL Media graduate and FA-qualified grassroots football coach with experience across football, sport, media and data analytics. Delivered football content and campaigns in collaboration with Arsenal FC, BBC Sport, ITV Sport, The FA, Nike, Adidas, EA Sports and UEFA, including research-driven content that achieved over 1M views across TikTok and Instagram. Recently completed Generation UK's Data Analytics programme, gaining practical skills in Excel, SQL, Python and Power BI. Combines analytical, creative and interpersonal strengths to turn data and audience insight into clear recommendations and engaging stories. Curious about what makes fans tick and keen to use data, marketing and commercial thinking to help sports and entertainment organisations grow their audiences and revenues.

CORE SKILLS

- **Data & Analytics:** Microsoft Excel (pivot tables, formulas, data cleaning), SQL (querying, filtering, joins), Python (data cleaning and manipulation), Power BI, dashboard building, data visualisation, reporting.
- **Digital Marketing & Content:** Campaign research, audience insight, Instagram, TikTok and Meta platform analytics, performance-led content optimisation, content planning and publishing, data storytelling.
- **Fan & Audience Insight:** Researching audience behaviour, cultural trends and what drives engagement, and translating findings into content and campaign recommendations.
- **Leadership & Communication:** Team management, stakeholder collaboration, presenting research and recommendations, working to deadlines across multiple projects.

WORK EXPERIENCE

Data Analytics Trainee June 2026 – September 2026
Generation UK & Ireland, Remote

- Completed an intensive programme in data preparation, analysis, visualisation and reporting using industry tools.
- Built dashboards and visual reports from real-world style datasets, surfacing key trends and patterns for stakeholders.
- Cleaned and queried datasets using Excel, SQL and Python, turning raw data into clear, actionable insights.
- Delivered analytical outputs to deadline while managing multiple concurrent tasks.

Digital Media Specialist March 2026 – Present
BLAQ UK (UK Black Pride), Manchester

- Monitor audience engagement and content performance to identify what resonates and inform future content.
- Research cultural conversations, trends and audience interests to shape content development and creative strategy.
- Plan, create and publish social media content across platforms, driving consistent engagement and community growth.

Researcher, Content Team October 2025 – February 2026
411, London

- Researched topics, people, trends and cultural conversations to inform editorial and creative content.
- Gathered, analysed and organised information to identify insights and opportunities for digital content.
- Presented research findings and ideas to the Content Team to support creative decision-making.

Campaign & Content Contributor January 2025 – June 2025
Google Pixel FC – The Powerhouse Project, United Kingdom

- Conducted campaign research and audience analysis to inform content strategy for multi-platform campaigns delivered with Arsenal FC, BBC Sport, ITV Sport and The FA.
- Used audience insight to shape content ideas for football audiences, contributing to campaign reach across digital platforms.
- Translated research findings into content recommendations, supporting campaign planning across partner organisations.

Content & Community Lead February 2025 – April 2025

League Leaders (football charity), London

- Grew social media following by 2,000+ in under three months through structured publishing, audience engagement and performance-led content optimisation.
- Managed a team of content creators, reviewing platform analytics weekly to monitor quality and optimise performance.
- Used audience insights and performance data to inform digital content and community growth strategy.

Marketing Communications Intern May 2024 – August 2024

Bloomsbury Football Foundation, London

- Conducted research to inform marketing and communications across grassroots football programmes.
- Supported the delivery of campaigns and engagement initiatives across grassroots football communities.
- Coordinated communications with the wider team, ensuring consistent messaging across programmes.

Production Intern May 2023 – August 2023

COPA90 / Bullion Productions, London

- Conducted research for football content that achieved 1M+ views across TikTok and Instagram, later featured by BBC Sport, England Football and INDIVISA.
- Supported end-to-end production on branded projects with Nike, Adidas, EA Sports and UEFA, coordinating research, scheduling and post-production.
- Used research and platform-specific insight to shape football stories for digital audiences.

EDUCATION

BA Media (Film Production Pathway), 2:1 September 2021 – June 2024

University College London (UCL)

Relevant modules: Digital Cultures and Society; Introduction to Media Theory and Analysis; Digital Economy and Professional Practice; Media Globalisation; Media Entrepreneurship.

CERTIFICATIONS
